EDUCATION

COMSATS UNIVERSITY LAHORE

2023-2027

- Bachelor of Artficial Intelliegence
- GPA: 3.1/ 4.0

SKILLS

- Web Development
- Machine Learning
- Time Management
- Effective Communication
- Critical Thinking

LANGUAGES

- Urdu(Native)
- English(Fluent)

PROFILE

Artificial Intelligence student with academic and hands-on experience in technical projects. Comfortable working in collaborative environments and contributing to problem-solving tasks. Interested in applying learning to practical use cases and growing through real-world development work.

PROJECTS

- **Ecommerce App**

  Developed a full-featured MERN stack application with user authentication, product management, and a shopping cart system

  LINK

- **Python console based Adventure Game**

  Designed and implemented an interactive text-based game using Python, focusing on decision trees and modular code structure.

  LINK

- **Classification of Air Qualtity using ML**

  Built an ML model to classify air quality levels using real-world datasets. Applied data preprocessing, feature selection, and classification algorithms (e.g., SVM, Random Forest).
